## Policy Objectives

A "green campus" is a location where sustainable and eco-friendly practises are promoted through education and environmental friendly actions. The idea of a "green campus" gives a facility the chance to take the initiative in reinventing its environmental culture and building new paradigms by addressing human needs in the areas of the environment, society, and the economy.

In order to make the campus more environmentally friendly, wasted inefficiencies must be eliminated, conventional energy sources must be used for everyday power demands, proper disposal must be handled, environmentally friendly goods must be purchased, and a recycling program must be successful. The institute has to develop time-bound plans for implementing green campus initiatives. In order to provide a clear and transparent institutional planning and budgeting process, these techniques must be aimed to develop a clean and green campus.

## Major Green campus Initiatives in VIPT campus:

- Institute Medicinal Plant Garden
- Pedestrian friendly Road
- Paperless office
- Energy Efficient Campus
- Plastic free campus
- Landscaping with trees and plants
- Eco Friendly and Plantable Ganesh Idols
- Plantations on Birthdays

## Initiatives for Plastic Free Campus

The Institute is meticulously committed to work towards plastic free campus. The institute is sensitizing students and nearby communities on the detrimental effects of plastic and creating awareness of plastic alternatives.

### Paperless office

All offices are committed to a paperless concept by displaying all notices and information digitally through email, SMS, whats app groups, as much as possible in classrooms. For which the institute is equipped with high-speed Wi-Fi. Other practices such as reusing single-sided paper for notes, rough work, rough prints, etc. Cashless payments are often encouraged. We also aim to reduce the amount of paper used.

### Energy Efficient Campus

### Eco Friendly Ganesh Idols

VIPT is always conscious of the environment and think of all possible ways to protect the Mother Nature. In this regard, Vignan Institute of Pharmaceutical Technology creates awareness among people and students by making and distributing clay idols.
